WINTER 2019

DIANE'S DESIGN CORNER

I love to start each New Year with a LONG list of To Do's and see how many Frank and I can check off our

list thru the year. Last year was paint, this year we need a new Kitchen floor. So many selections and colors to choose from. I find it easier to help our clients than for our own home. 😊

I browse thru Websites, magazines etc. for New trends for paint, flooring and furniture ideas. That covers everything from top to bottom and side to side! New carpet offers you a chance to really showcase strong design statements in your home. I have noticed that most furniture is either leather or none patterned materials. A great opportunity to bring in some design carpets and textures that will work with your style and family.

Laminate floors are back!!

New, water resistant and fabulous looking. Laminate always was one of the hardest floors we sold, however water was an issue at times. CBL Floors carries Mohawks RevWood, Inhaus Sono (made in Germany) in our store. With water proof ceramic composition core. Maximum scratch protection and perimeter coating with Hydro seal which repels water so planks resist swelling from moisture. Sounds almost to good to be true. Remember will also carry Shaw carpets that pet proof as well. Frank and I have witnessed many amazing changes answering our consumers issues.

Reflections on 2018

We were asked recently, what made 2018 an excellent year? As owners of CBL Floors we would say our priorities – God, family, and business were in the right order. Our business is based on integrity to our customers, and strong family values that cross over to the CBL business model. Success comes in different forms. CBL Floors will reach a milestone *40 years in business this year*, and how fast the time has gone.

The best memories of 2018 are the opportunity to meet new, and renew old relationships with you, our customers. Diane and I were recently watching "The best of Johnny Carson". We smiled a lot and thought back over the years and milestones in our life. CBL Floors has been a big part of our life and it has been as fun for us because of you. Thank you for your confidence and your friendship!

Sincerely

Diane & Frank

Another Very Happy Customer!

Recent installation of Evoke Luxury Vinyl Plank (LVP) at Shelly R's home. Shelly said that she could not be any happier with her new flooring that is one of the most durable floors on the market. It is particularly made for busy households, doesn't scratch easily, absorbs shocks well, is soft underfoot, and most important won't crack or chip when a dish jumps out of the cabinet or a cup leaps from your hands. Come and check it out, see for yourself!
