## CBL Floors Covid-19 Preparedness Plan – to ensure a safe and healthy workplace

- CBL is committed to providing a safe and healthy workplace for all our workers, customers, clients, patrons, guests & visitors. Managers and workers are all responsible for implementing this plan.
  
- Salespersons and installers will wear masks in indoor businesses, public areas and homes, and when closer than 6 feet from customers, clients, patrons, guests and visitors. Social distancing is still in effect and necessary.
- Because the virus is mostly spread through respiratory droplets released when people talk, wearing masks helps limit the spread of the droplets.
- State officials say face coverings can include a paper or disposable mask, a cloth mask, a neck gaiter, a scarf, bandana, or religious face covering. The masks must cover your nose and mouth.
- Additional protocols will be used to limit face-to-face interaction.
- Additional protocols will be used for receiving or exchanging payment.
- Worker hygiene – regular use of hand sanitizer and frequent hand washing when in businesses and homes.
- CBL adheres to policies and procedures that assist in the identification of sick workers, and ensures that sick workers stay home.
- CBL is employing drop-off, pick-up and delivery cleaning and disinfecting protections and protocols.
- CBL Floors is doing everything we can to keep our employees, customers, and themselves healthy. We are all working together to reduce the spread of Covid-19.
- CBL has reviewed and incorporated the industry guidance applicable to our business provided by the State of Minnesota for the development of this Plan.
